

Sid Meier's Civilization VI on the Nintendo Switch, a GameFAQs message board topic titled " Stuck " The Enemy Within (PC) --- (Sid Meiers Civilization VI) ► Playstation 3 ► PC is the best shooting game ever made! Cheatbook is your cheat site for The Enemy Within (PC), TIGA.I remember the first time I ever met William Shatner. It was in the mid-1990s at a literary festival in Edinburgh. I was asked to do a reading, and I'd lined up a few celebrity friends to accompany me: Rory MacLean, the guitarist with Simple Minds, and Angus Young, the drummer in AC/DC. As I was about to go on stage, I walked up to the star of the show, William Shatner. He was a good seven feet tall and a bit hulking. I went up to him, threw my arms around his neck and said, "Welcome to Scotland, Mr Shatner!" The guy laughed. You never see Shatner laugh. Unless it's in his starring role in the play "Incident at Loch Ness". I didn't catch his comedy routine after that, which is a shame, because I would have liked to have seen it. But there's something about Shatner's portrayal of Captain Kirk that people just don't seem to get. Which is why I'm pretty sure that the fan-vote for the upcoming Greatest Living Canadian award went to Shatner. I was reading that wonderful piece in Maclean's a couple of weeks ago, and they reported that there was a bunch of votes for Shatner that popped into the electronic ballot box between 2011 and 2013. Shatner was the odds-on favourite going in, and was actually nominated for the award in 2011. His dad, Leonard, was the original nominee. But it was William Shatner that was nominated for a third time in 2013, with the folk-legend vote. And while the people who voted for him spoke up about their love for the guy, they were far outnumbered by the 11,000 that voted for the actual sitting provincial government. I remember thinking at the time that there was more love for Shatner in British Columbia than there was for CBC Radio, even though this was an award bestowed upon public figures. The result of a free vote
